| Major Changes and Achievements Described |
|---|
| <p>This week I made 7 different tiles for my game. These tiles include a main block, a left slope, a right slope, a right wedge piece, a left wedge piece and 2 different coins. I have</p> |

also added some text on the map, so people can learn the controls.

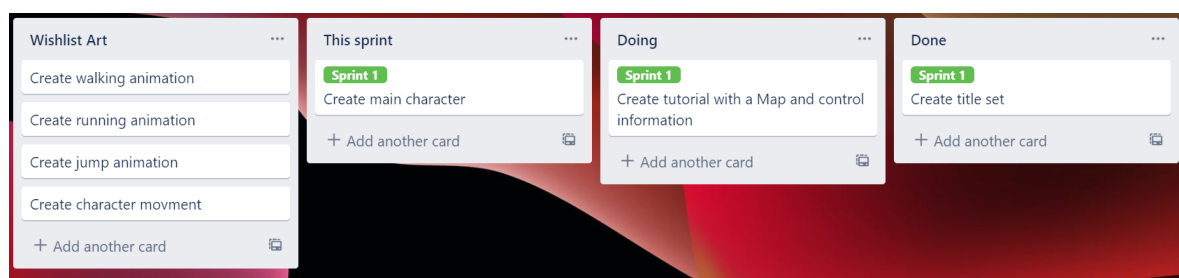

Brief Description of your testing

This sprint I didn't get any testing done I will do this next sprint, on things I completed this sprint and the next one.

Sprint Reflection and summary

In this sprint I lost the majority of my files on my computer, therefore I lost a lot of the testing images I had. The stuff I did recover was my 7 different titles for my title sheet. Even though I lost this stuff, The things I did complete I believe was good enough, But i did want to complete more. I am happy with the tiles I created, but this might change when I get a proper theme for my game.

Notes for next time, future improvements

Next time, I would like to finish off my tutorial and add a pause screen, create a second level and add some more sprites.
